

Voice in the Cloud
Mexico
CUDI Meeting Puerto Vallarta,
Mexico
April 23 2105

Walt Magnussen, Ph.D.
Texas A&M University
Director – Internet2 Technology
Evaluation Center (ITEC)

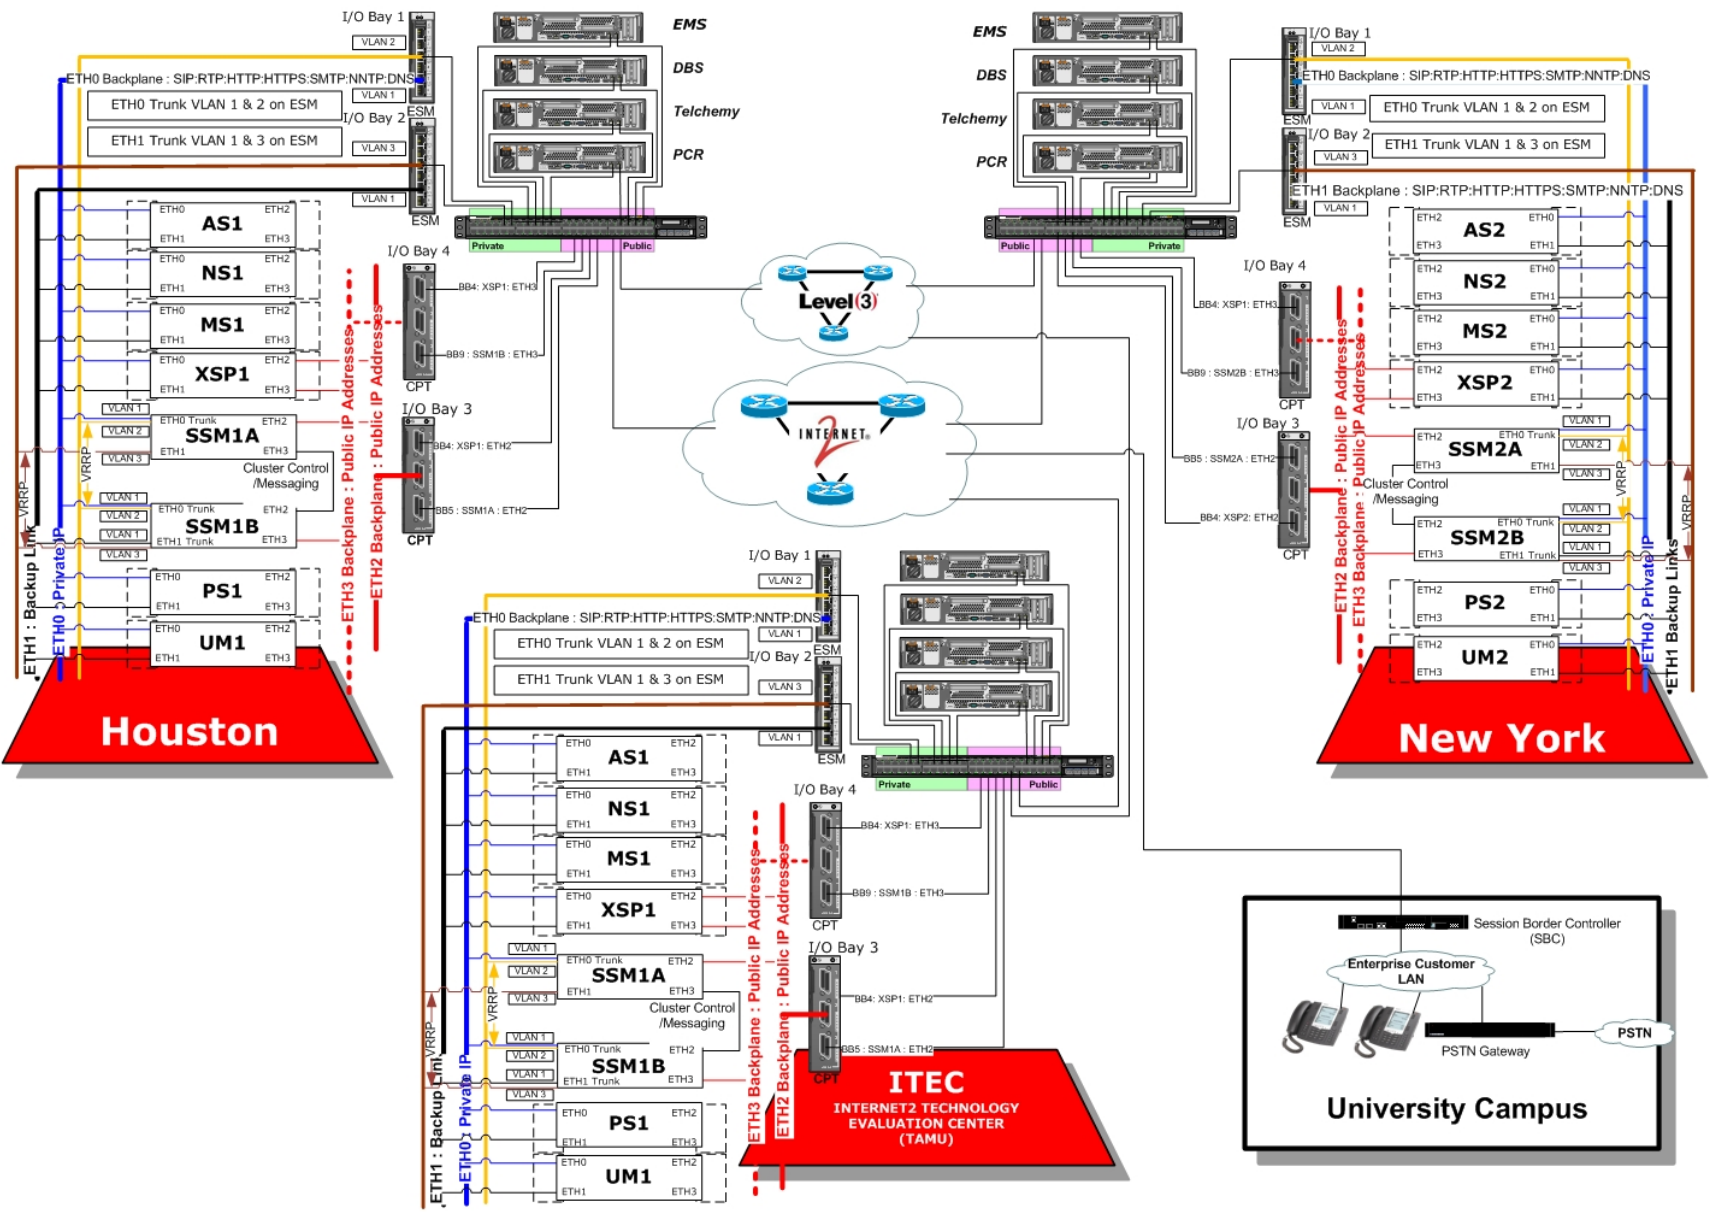

History

- TAMU begins to chair Internet2 VoIP Working Group in 2003
- TAMU installs Mitel SIP solution on campus 2009
- 2014 SIP Netplus solution added in United States
- April 2015 about 20,000 lines enabled at Internet2, Iowa State, Tulane, Penn State and others

Benefits

- Much lower cost than any other solution
- Flexibility of Standards based
- Local control
- Others take care of managing call manager
- Enough equipment is on campus to ensure that it will work even when the network is down
- Integrates Voice and Video in a standards based environment
- Community driven direction – Internet2 SIP Steering Committee (ISSC)
