By now…

You all know **WHAT** is FIWARE…

…but **HOW** can FIWARE help boosting innovation in Mexico and support your R&D efforts to build advanced Smart Services is what we want to help you with

Our Approach

- Working **FOR you, WITH you**

- Providing **know-how**, **technologies**, **training**, **tools**…

- ….and most of all **ACCESS to the whole FIWARE Ecosystem**

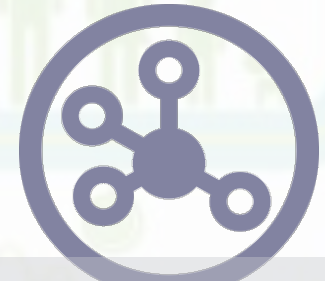

Empowering Technology & Community

An Open Innovation Ecosystem

Analyse needs and define strategies

Promote visibility

Guide contributions to FIWARE

Facilitate Networking and Partnerships

Create a Community & Collaborative Hub

Provide trainings on FIWARE technologies

FIWARE for Smart Services

FIWARE

Some facts and numbers

The A16 Acceleration Programme Outomes

25% of the initiatives are **Smart City projects** of which:

36% target transport*

32% target government

15% target cross sector

9% target utilities

8...

6%
are ...
comp...

industries addressed

13% of B2B companies

Planned FIWARE Activities in Mexico

Contribute to strengthen the Mexican Innovation Ecosystem

- **To establish a community** in Mexico around uptake of FIWARE and provide access to the whole EU and worldwide FIWARE ecosystem

- **To design and implement a complete training plan** for FIWARE technology engagement to facilitate adoption and uptake

- **To establish and implement Working Groups** to support the uptake of FIWARE technologies, by engaging with the industry and other stakeholders

- **To identify and foster FIWARE-driven synergies**, facilitate networking among relevant stakeholders and organize joint actions serving innovators' needs

- **To raise awareness of opportunities for FIWARE** collaboration between Mexican and European players

FIWARE

Today's workshop as a starting point

- A first appointment to get to know each other BUT this is only the beginning

We aim to create an open and sustainable EU-MEX Innovation Hub

- A number of events are planned to take place in Mex and EU

- Success stories and best practices guidelines will be provided

- Access to already available resources, documents and tools will be enabled

- Training and support at the core of the collaborative framework

- Web presence providing information and resources will be set up soon
  - www.smartsdk.eu already up and running
  - www.fiwaremexico.eu coming up soon (both in English and Spanish)

FIWARE

MUCHAS GRACIAS!
