MX-EU Collaboration on FIWARE & FIWARE-ready IoT Program

FIWARE READY Internet of Things

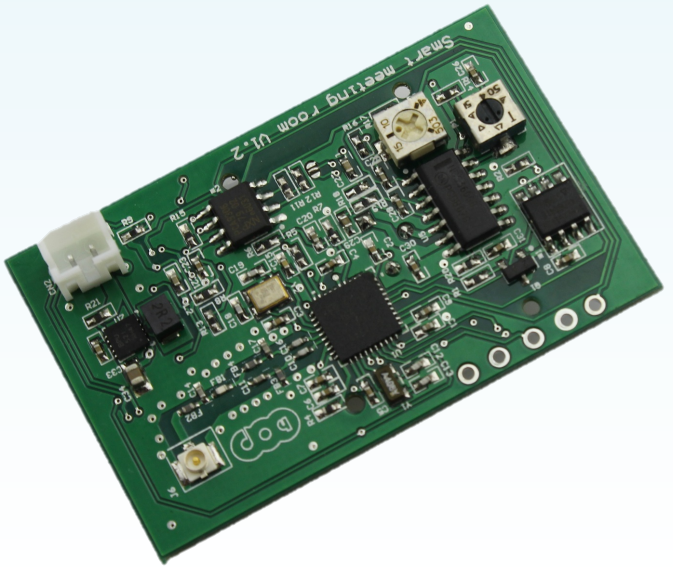
SMART SDK FIWARE-ready

Orion Context Broker Integration of new Sensors

HOP Ubiquitous is updating, enhancing and integrating OMA LwM2M sensors such as:

- HOP Basic: Beacon
- HOP Core: Temperature, Humidity, Noise
- HOP SMR: Temp, Hum, Motion, Light Level
- HOP SAFESENS: Air Quality

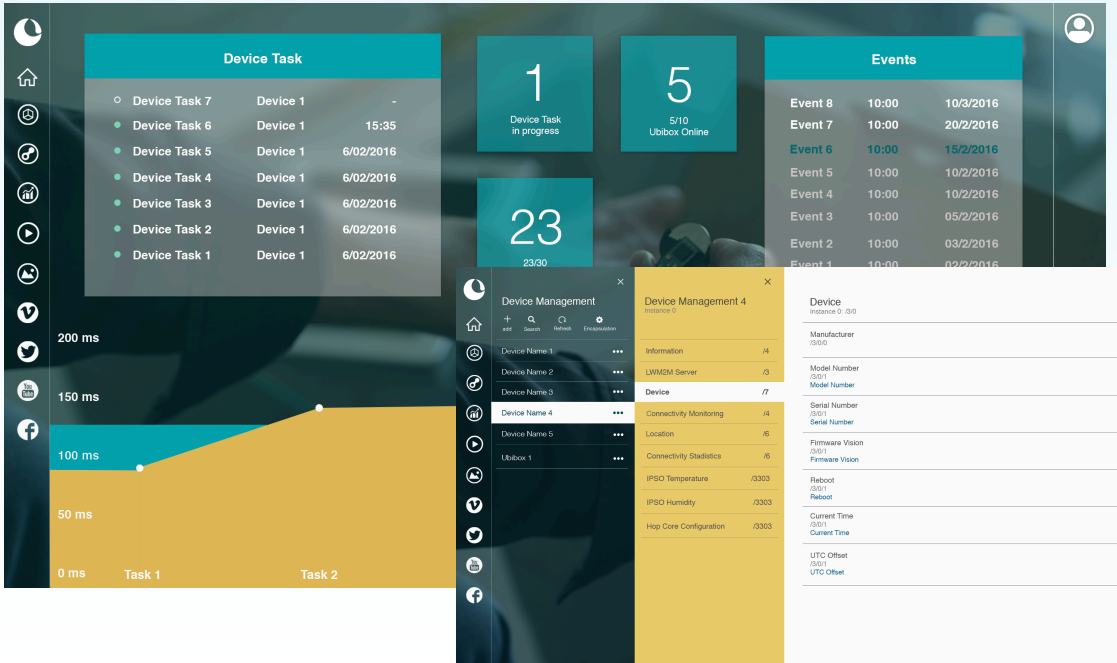
UbiBox EasyM2M (Telefonica SIM Card)



FIWARE READY Internet of Things

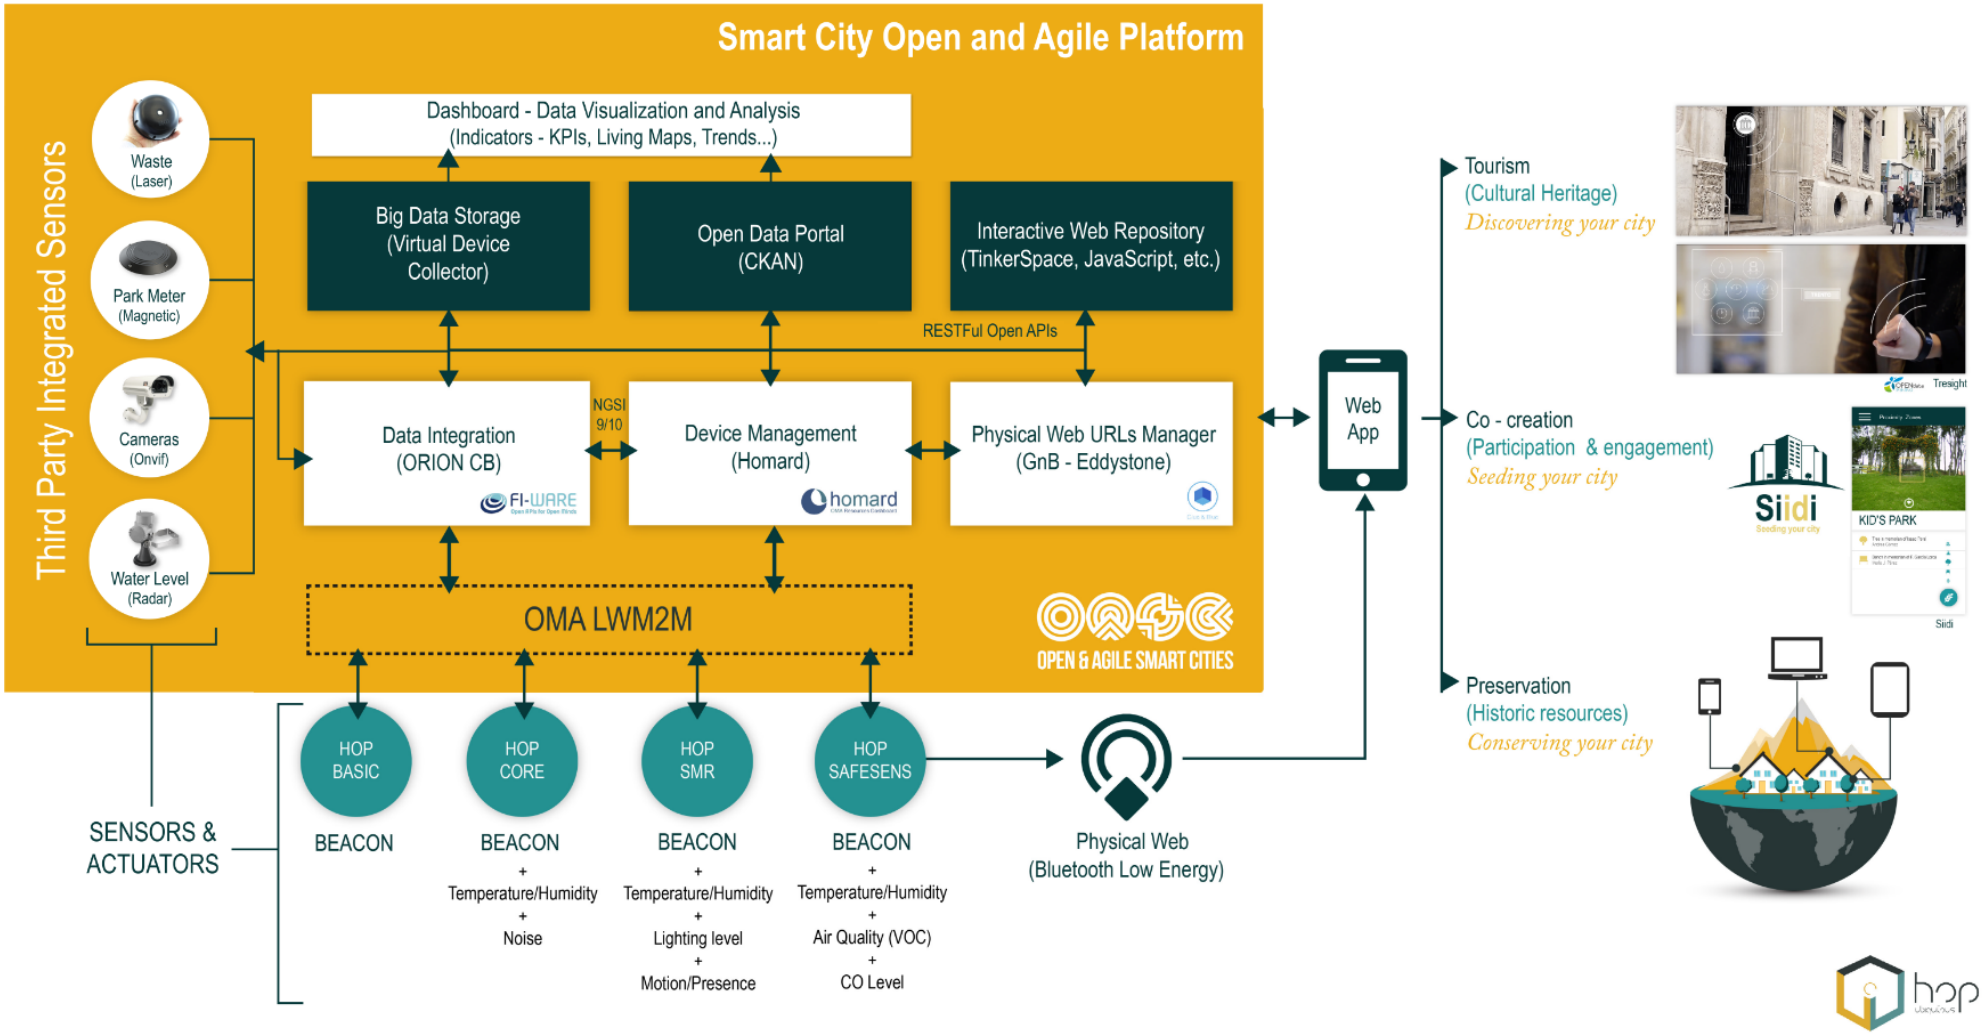
SMART SDK Homard Platform

- FIWARE-based platform
- OMA LwM2M Server (Firmware upgrade, observers,
- Data Storage (Open Stack scalable architecture for virtual device collectors)
- Integrated with Microsoft Azure, Fujitsu RunMyProcess, Activiti BPM, and other platforms via Open APIs
- Import and Export Data
    - Open Data: CKAN
    - OMA NGSI 9/10
    - OMA LwM2M



FIWARE READY Internet of Things

SMART SDK FIWARE-ready OASC



SMART SDK FIWARE-ready Home

The appearance of your sensors can be completely personalized to fit with your unique style, enabling you to use shapes and materials that enhance your home.
